

INVITATION LETTER

Dear Sir/Madam,

It is our pleasure to invite you to participate in the **4th International Conference on Critical Infrastructure**, which will be held this year under the title:

“Resilience of the Critical Infrastructure of the Republic of Serbia in the Triangle of Geopolitics, Artificial Intelligence and Climate Change”

The conference will bring together representatives of government institutions, the academic and professional community, industry, critical infrastructure operators, international organizations, and other relevant stakeholders with the aim of exchanging knowledge, experiences, and examples of good practice in the field of protection, management, and strengthening the resilience of critical infrastructure.

Special attention will be dedicated to contemporary challenges arising from changes in the geopolitical and security environment, the accelerated development of artificial intelligence and other emerging technologies, as well as the increasingly significant consequences of climate change. Through keynote presentations and panel discussions, risks, interdependencies, and opportunities for improving preventive measures, business continuity, crisis management, and the overall resilience of systems vital to the functioning of the state and society will be discussed.

The conference represents an opportunity to connect decision-makers, experts, researchers, and industry representatives, as well as to initiate dialogue on future models of cooperation and the development of sustainable solutions for the protection of critical infrastructure.

We would be honored if your presence and participation would contribute to the quality and significance of this international gathering.

Date: 5–6 November 2026

Venue: Zlatibor (Hotel Palisad)

Organizer:

Center for Risk Analysis and Crisis Management

Please confirm your participation no later than **20 October 2026** via e-mail address: caruk06@gmail.com or telephone: +381 69 1230265.

We look forward to your presence and contribution to the work of the **4th International Conference on Critical Infrastructure**.

Sincerely,

Zoran Keković

President of the Organizing Committee

Center for Risk Analysis and Crisis Management
